

Dear Backer

Thanks again for your patience and support during the development and production of The Z. We hope you're as pleased as we are that you now have The Z in your hands!

The Z driver is very powerful, and will give you more ways to configure and control your computer than any other mouse on the planet (seriously!). The driver is very much a work in progress and will really evolve over the next weeks and months. This will be driven by your feedback, so please let us know your thoughts.

For Windows users, please go to www.swiftpoint.com/support/z-drivers to download.

For Mac users please go to www.swiftpoint.com/mac-driver

For any queries or feedback on your Z, please contact us at teamZ@swiftpoint.com as we would love to hear from you.

We're extremely proud to deliver the Z to you and soon, to the wider community. Your pledge and belief in us has enabled us to get this far.

If you get as much enjoyment and value from the Z, as we believe you will! - please tell your friends. As we move to wider distribution of the Z through on-line and retail channels in June, a successful retail launch of The Z will ensure we can continue to develop products to enhance experiences for gamers, designers and power users.

We're keen to develop a Z community. When the dust settles, Dave, our new Community Manager will be in touch to find out if you wish to join us and other Z owners.

Thank you again for making The Z a reality, we simply couldn't have done it without you.

Grant and the Swiftpoint Team
